Subject: Pre-Filters

Page 1 of 5

Message: Len--Here is pricing as we discussed earlier.

Roughing Filter--this is our new PerfectPleat filter. It meets ASHRAE 52.1 @ 25-30% efficiency. These just came out this month and should be available now.

Pre-filter--two choices here. I would recommend the poly blue pad, it is cheaper and meets arrestance value of 80-85%.

Thanks.
